**Position:** Senior Flash Developer #CC0507148  
**Location:** San Francisco, CA  
**Department:** Mobile and Devices

## Overview

Adobe (NASDAQ: ADBE) For more than two decades, the company's award-winning technologies and software have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people anywhere at anytime. From rich images in print, video, and film to dynamic digital content for a variety of media, the impact of Adobe solutions is clear to anyone who creates, views, and interacts with information.

Now that Adobe and Macromedia are one company, Adobe is better positioned than ever to push the boundaries of the digital universe. Under the leadership of CEO Bruce Chizen, we're driving even greater innovation with powerful, compelling software solutions that meet the needs of customers and markets ranging from designers and filmmakers, to enterprises and governments, to developers and home users.

Recognizing that employees are at the core of our success, Adobe recruits and retains highly qualified and motivated individuals, creates an environment where they can innovate and achieve their best, and rewards them for their performance by giving them an opportunity to share in the company's success.

## Position Summary:

Adobe is ideally positioned to play a leading role in the burgeoning mobile data economy, delivering rich content and applications on cell phones and mobile devices. We are now adding the new position of Senior Flash Developer to our Mobile Applications team. In this role you will help drive the delivery of successful, cutting-edge mobile products by working on a team with other highly talented developers. This is an exciting opportunity to help design mobile solutions using Flash and other Adobe technologies.

We're seeking an experienced Flash developer that is well versed in object-oriented programming. The Senior Flash Developer must have a strong programming background that demonstrates a compelling history of innovation and execution. You will help develop reference applications and libraries in Flash, work side by side with core development to extend the Flash standard, and define best practices to help our customers.

## Responsibilities:

- Plan, design, develop, and implement Flash applications and ActionScript libraries for mobile devices.
- Work on multiple projects from requirements generation through design, specification, coding, and debugging.
- Define, innovate, and document processes and best practices for mobile Flash developers.
- Work closely with QA engineers to ensure quality throughout the development cycle.
- Self-manage tasks and schedules.

## Knowledge & Skills:

- Four-year college degree, Computer Science preferred.
- Minimum three years experience developing and producing Flash applications using ActionScript.
- Five or more years experience in commercial software development, including OO programming.
- Strong portfolio that includes numerous examples of advanced programming skills.
- Excellent English written and verbal communication skills, and able to collaborate effectively with teammates.

Simply Better. [www.adobecareers.com](http://www.adobecareers.com)

- Ability to work closely with customers, understand their requirements, and deliver accordingly.
- Motivated self-starter who likes working on very productive, fast-paced teams.
- Experience building and deploying C/C++ or Java applications.
- Strong knowledge of mobile technologies (such as WAP, SMS, MMS).
- Experience defining APIs and creating code libraries used by others.
- Passion for mobile devices and other gadgets.
- Ability to present on standards bodies, consortiums, etc.

Adobe believes personal fulfillment and company success go hand in hand, sustaining one another. In fact, our dynamic, rewarding working environment is well known – including seven consecutive years on FORTUNE magazine’s “100 Best Companies to Work For” and other, similar accolades. By hiring the very best and brightest, Adobe continues to be a simply better place to work – creating a dynamic environment today and providing incentives for future achievement.
